Summary

Summary
I am a tech talent and for me, there is no burnout. I love this journey of self development. At the moment I'm a junior full-stack developer and I make web application with firebase and React.

Experience

Frontend Web Developer
Feb 2019 - Apr 2019 (3 months)
I worked as a junior fullstack developer for a startup. I got a ton of experience in mastering css cause I was responsible for the entire front-end logic.

Education

University of Nigeria, Nsukka
Bachelor of Engineering - BE, Computer Science

Skills

css • html • javascript • React.js • Node.js • Git • Material-UI • Firebase • styled-components • Redux.js
